

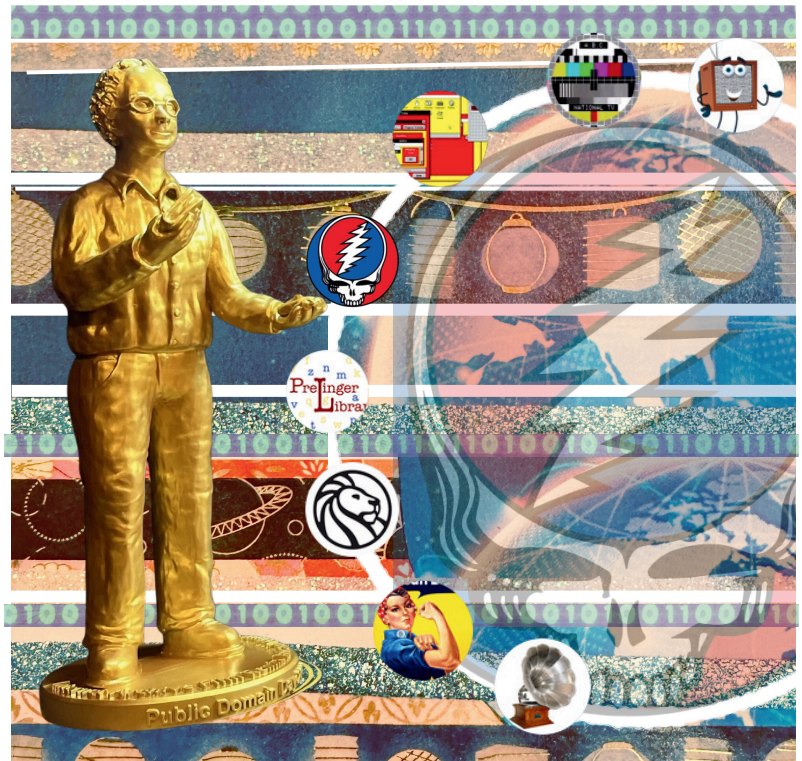
The INTERNET ARCHIVE

UNIVERSAL KNOWLEDGE

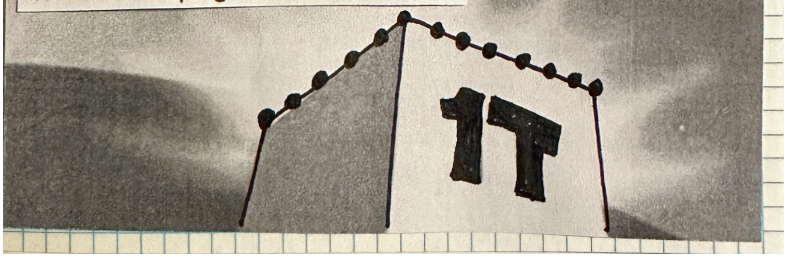


WayBack Machine

The WBM uses web crawlers to systematically examine and store web pages on its servers. These tools capture snapshots of websites, creating a vast collection of web page archives. By the end of 2025 there will be 1

1,000,000,000,000

TRILLION pages archived!!!



(Interviewer:) "And (the internet is) growing at what rate?"

(Brewster:) "We don't know...frankly... we just don't know"
